Comfort Science

1 Traditional hand tufted
Soft to touch fabric surface
50% viscose, 30% cotton,
20% polyester.

2 Wool
Performance layer of wool.
Naturally improving the fire
resistance of the mattress and
actively wicking away moisture.

3 Breathable e-Fibre
e-Fibre comfort layers allow
air to flow freely throughout
the entire mattress helping to
reduce moisture build up.

4 High Density
e-Fibre insulator
Helps to prevent
spring feel.

5 Deep e-Pocket
For responsive
contour support. **or** Deep e-Spring
For evenly
distributed support.

Health Science

FR Chemical treatment free
The fabrics and comfort layers
are naturally fire resistant and free from
FR chemical treatment.

Open cell construction
e-Fibre is breathable helping to reduce
moisture build up which can become a
breeding ground for micro-organisms.

Hypoallergenic Materials
All materials used are hypoallergenic
helping to reduce the risk of an
allergic reaction.

100% Foam Free
The e-Fibre used in our mattresses is
100% foam free and free from harmful
VOC chemical emissions.

Over **100 million** plastic bottles* diverted from landfill and oceans.

*The e-Fibre™ used in our mattresses features polyester created from 100% recyclable plastic bottles.
Weight of plastic described in equivalent number of average sized plastic drinking bottles.
