*25 Stone User Weight

JAY-BE®

Sleep Smart

Perfect for unexpected sleepovers and regular visitors, the JAY-BE® Supreme folding bed has a sturdy steel frame and the latest J-Text™ sprung base system to provide maximum comfort, durability and support. J-Text™ is made from PVC coated woven polyester, a specially engineered technical fabric designed to be stretch resistant and offer long term durability. Suspended using high-tension springs, the J-Text™ sprung base system is extremely strong and independently tested and proven to perform as well as regular permanent beds. Finished in a high quality, durable epoxy paint to keep it looking new for longer, the Supreme also has a headboard to stop your pillow escaping in the night.

The fully automatic leg mechanism means you can open and close it in seconds and the frame stands on 360° castors so manoeuvring is even easier. Unlike foam, the breathable Airflow Fibre Mattress fillings have a unique open cell structure for ventilation. This ensures that the mattress stays fresh when stored, as well as helping to maintain body temperature during sleep for optimum comfort. All JAY-BE® folding beds are made in the UK and come with a FREE lifetime frame guarantee for your complete quality assurance.
